SPRING AND FALL, 1915

The PALISADES NURSERIES

INCORPORATED

R. W. CLUCAS, Manager

SPARKILL, N. Y.
(ROCKLAND COUNTY)

INTRODUCTORY REMARKS AND TERMS

THE plants offered herein are all sturdy, transplanted and nursery-grown for more than one year, and can be depended upon for flowering satisfactorily the first season after planting out.

Our stock of plants is reasonably large, we having thirty acres of hardy plants in cultivation. We make a specialty of supplying **Landscape Gardeners, Dealers and others in the trade.**

We print real prices, which, as long as unsold and without engagement, we are willing to accept. The prices are net, except being subject to 2 per cent discount when cash accompanies order; otherwise payable in thirty days from date of invoice on approved credit. Packing charges at cost, f.o.b. Sparkill, N. Y. To meet reputable competition, we will reduce our prices still further on being given the opportunity.

No less than six of one kind furnished at dozen rates, 25 at 100 rates, 250 at 1,000 rates, unless otherwise specified. Clumps (or plants of extra-large size) can, in most cases, be supplied. Prices on application.

For varieties not listed herein see our Descriptive Catalogue of Palisades Popular Perennials. From prices quoted therein we allow the trade a special, liberal discount.

HARDY LARGE-FLOWERING
DOUBLE JAPANESE

The stock from which these varieties were
 grown was taken from an old-fashioned
 garden where they had stood the severest
 winters. They are the best we have yet seen
 of this type—being large and perfect flowers.
 We can offer four colors.

PHLOX ARENDSI DECUSSATA CANADENSIS

A new race of Phlox, flowering in May on strong stems, 12 to 24 inches high; blooms persistently for more than two months.

Amanda. Delicate lilac.
Charlotte. Rosy lilac.
Grete. Ivory-white.
Helene. Pale blue.
Kathe. Purplish rose.
Luise. Lilac, red eye.
30 cts. each, \$3 per doz., \$20 per 100

PHLOX DECUSSATA IN MIXTURE

In going over our Phlox during the growing season, we find many sorts sporting, which are always carefully removed and thrown together in mixture. Besides, names are sometimes lost by accident. This mixture contains some of the best types of all colors, making them suitable for massing where no particular color effect is desired. Strong, field-grown roots, in mixture, 5 cts. each, 50 cts. per doz., \$3 per 100, \$25 per 1,000.

PHLOX SUFFRUTICOSA
(Early-flowering Phlox)

These flower two or three weeks before Decussata, and make fine spikes of bloom again in the fall. Specially useful for cutting.
